

# Asian Lung Cancer Symposium

## AHI Bilingual (English/Cantonese) Health Education Virtual Town Hall

Lung cancer is a leading cancer diagnosis and leading cause of death in the Asian community both here in the U.S. and overseas. Within the AAPI subgroups, Vietnamese and Hawaiians have the highest rates of lung cancer deaths, while Filipino men and women have the lowest rates. Data from a study showed that Asians were 2.13 times more likely to be diagnosed with lung cancer at a later stage than Whites. Early diagnosis helps to get treatment at an earlier stage, and improves the survival probability and quality of life. But how can you find out early?

Want to find out more about lung cancers? Please join us in this important town hall.

### UCSF Asian Health Institute

加州大學舊金山分校亞裔健康研究院

### Bilingual (Cantonese/English) Health Education Virtual Town Hall

雙語 (粵英語) 健康教育視像講座

## Asian Lung Cancer Symposium

亞裔肺癌研討會

Part 1 - March 16, 三月十六日 2023 年 (Thursday 星期四)

Part 2 - March 23, 三月二十三日 2023 年 (Thursday 星期四)

下午 5:00 PM - 6 :30 PM (PST) for both dates above

### Registration 參加講座註冊

Registration is required. A unique zoom link will be sent to you upon registration to attend the town hall.

需要註冊，註冊後您會收到一條個人的參加講座鏈接
