The Winter Flu Epidemic: The Young, the Old, and the Health-Compromised

冬季流感疫情：年輕人，老年人，和體弱之士

Why is the influenza (flu) outbreak in the nation so serious this winter? The data from the Centers for Disease Control and Prevention (CDC) show that the number of people with the flu continues to be high across the country, including some people with serious flu-related complications. Dr. Deborah Yokoe, an expert in infectious diseases and infection control at UCSF, will give us invaluable advice regarding flu prevention, symptoms and treatment in this free and bilingual (English/Cantonese) lecture. All are welcome.

爲什麼今年冬季在全國爆發的流感這麼嚴重？據美國疾病控制預防中心（CDC）公佈的數據顯示，全國流感患者人數仍然居高不下，其中包括一些人患有嚴重的流感並發症。加州大學舊金山分校的傳染病與感染控制專家 Deborah Yokoe 醫學教授受邀爲我們提供一個免費的雙語（英語／廣東話）講座，分享流感病毒之預防，症狀和治療方面寶貴的醫療信息，歡迎各位參加。
